Cassini Technical Assessment

QA Engineer

July 2025

Assessment Details

The purpose of this assessment is to gain an understanding of your current knowledge base in SQL, which is used daily as a QA Engineer at Cassini.

Please answer the following questions in 15-20 minutes to the best of your ability.

SQL

On the following questions, you will be assessed on your SQL skills. Please answer each question as if you are entering commands into a database terminal.

1. tblFruit

FruitID	Name	Price	ColourID	SizeID	CountryID	SupplierID
1	Lemon	£1	1	2	1	1

6. tblSales

SaleID	FruitID	Quantity	SaleDate
1	1	10	01/05/2025
2	2	5	02/06/2025
3	3	8	01/07/2025
4	4	2	03/07/2025
5	5	15	03/07/2025
6	6	7	02/07/2025

Questions:

1. List all fruits with their colours and sizes.
2. Find all fruits supplied by "GreenHarvest" that are medium size.
3. List all countries and any fruits grown there (include countries with no fruits).
4. Show all suppliers and the fruits they supply, including suppliers who currently supply no fruits.
5. List all fruits and all suppliers, matching where possible, but showing all even if there is no match.
6. For each sale, display the fruit name, country of origin, supplier name, and sale quantity.
7. Which country has sold the highest total quantity of fruits?
8. List the names of fruits that have never been sold.
9. Are there any fruits with the same colour but different sizes? List their names.

10. For each sale, display the sale date, fruit name, fruit colour, fruit size, country of origin, supplier name, and quantity sold. Order the results by sale date and fruit name.
